During a working holiday in Italy in 2014 we made a complete 3D digital reconstruction and animation of the luxury hotel complex [Palazzo del Capo](#) and the restaurant La Rotonda . Hotel is categorized as a 5 star resort on the shores of the Tyrrhenian Sea in the municipality of Capo Bonifati, (Cittadella del Capo) and is very well connected with the local infrastructure. With Trenitalia trains for a symbolic amount of money, it is possible to go around and visit the entire coast from the province of Calabria, through the Basilicata to northern Campania province. The Resort itself used to be a medieval summer family residence and the whole complex is more than two centuries old.

Restoran La Rotonda

The fortress tower in which are today mostly honeymoon suites is dated from the Spanish period (16th century). The hotel offers a beautiful pool with a large private garden, a private beach, conference rooms, a dining room, outdoor breakfast areas, spa, and private parking.

Also within the hotel resort, there is a restaurant [La Rotonda](#), which offers Italian, French and Japanese cuisine. The restaurant is set on the rocks and offers unforgettable views of the sunsets and the Tyrrhenian Sea. The chef and restaurant manager Giorgio Ivkovic is in charge of the fantastic gastronomic specialties.
