

Vrtni staklenik 2020

Osvrt na projekat

Dizajn & Projektovanje | Design & Planning

Vrtni staklenik

Ovaj projekat vrtnog staklenika je još uvek na nivou konceptualnog idejnog rešenja. Glavna namena ovog mini montažnog objekta je prvenstveno fokusirana na kreativni radni prostor uz zimsko odlaganje biljaka (zimski stacionar). Ukupna projektovana površina iznosi oko 14 kvm. U sklopu ovog montažnog objekta predviđena je i drvena terasa (paluba) ukupne površine oko 11 kvm.

Garden greenhouse, Belgrade, Serbia (2020)

This garden greenhouse project is still at the level of a conceptual design. The main purpose of this mini prefabricated building is primarily focused on creative work space with winter storage of plants (winter garden storage). The total projected size is around 14 sqm. As part of this prefabricated building, wooden terrace (deck) is also planned with a total size of around 11 square meters .
